ALLEN BUI

SOFTWARE ENGINEER

408.643.2922 | allen.vbui@gmail.com | allenbui.com | linkedin.com/in/allenvbui | github.com/allen-bui

PROFESSIONAL OVERVIEW

I'm a software engineer with over 4+ years of experience building, designing, and maintaining beautiful and responsive web interfaces. I have a proven track record of working quickly independently and as part of a larger team, along with a solid foundation in JavaScript, TypeScript, React, APIs, CSS, and writing Python scripts. I enjoy learning complex things and am passionate about building products that people will love.

WORK EXPERIENCE

Movable Ink | *Front End Developer* | *New York, NY*   Mar 2020 - Present
- Increase developer productivity by up to 20% through creating code scaffolding templates for the same request being asked by different clients and agents
- Decrease developer workload by 16% through implementation of CI/CD within Github
- Deliver high quality and scalable code while maintaining a 98% SLA on tickets
- Write scripts to automate our team's reporting metrics, saving up to 10 hours a month
- Enforce writing unit tests to reduce the number of bugs entering the staging and production environments for maximum reliability and uptime
- Craft precise and easily digestible documentation to ensure accessibility for fellow engineers
- Conduct code reviews and provide feedback to junior engineers to adhere by the company's code standards and best engineering practices

Salesforce | *Senior Data Analyst* | *San Francisco, CA*   Jan 2016 - Oct 2019
- Drove a remarkable 30% increase in team productivity by automating operational processes using Python and optimizing workflow efficiency and resource allocation
- Reduced team workload by 42% through building data pipelines to seamlessly process millions of rows of data from our databases to data visualization platform
- Designed, developed, and enhanced visually stunning data visualizations for our executive
- Collaborated cross functionally with multiple teams within our organization to ensure data integrity and facilitate decision-making processes

TECHNICAL SKILLS

JavaScript	React / Redux	MySQL	Jest
TypeScript	Tailwind CSS	PostgreSQL	React Testing Library
Next.js	Data Visualization	Python	Git + Github

EDUCATION

Hack Reactor @ Galvanize   Completed 2019
San Francisco | Software Engineering Certification

University of California, Davis   Completed 2014
Davis, CA | B.A., Economics
